Draft Classic Wagon Bed on Three Ton Pioneer Gear with Wood Wheels & Rubber Tires  
Optional LED Lights and Canvas Top

# PARADE & TRAIL WAGONS

## Draft Classic

Our most popular model, this wagon bed measures 68" x 12' (64" outside wheels). Easy access to storage under the hinged front seat and easy access for passengers with a rear retractable step. The gear itself is available with bolster springs, or torsion axles.

Our well known Automotive Finish comes standard on all of our wagons. All of our stained or clear wagons are constructed of quality dried poplar wood throughout. For painted wagons we use poplar along with extremely durable PVC material for the sidewalls, seat and footboard.

Optional LED Lights and Cushions On Rear Benches

## Weaver's Newly Designed Fifth-Wheel Gear

This brand new gear is currently available as an alternative to the popular automotive steering gear. This design, features a sharper turning radius, a heavy-duty - yet lightweight design, leaf spring suspension, hydraulic brakes and a raised steel tongue with spring assist.

Draft Classic Wagon Bed on Weaver Fifth Wheel Gear with Air Tires

**Caution:** Weaver Fifth-Wheel Gears are recommended for an experienced teamster only. Proper weight distribution and an acute awareness when making sharp turns is critical as these types of gears are susceptible to tipping, even on level ground, if one is not careful.

## Pioneer 3-Ton Gear

The Pioneer gear features automotive style steering, grease fittings on all pivot points and wheel hubs, along with heavy-duty axles and spindles.

## Weaver's Automotive Finish

The automotive finish is a complex eight-step process that begins with a wagon sanded to an ultra-smooth finish. Numerous coats of finish are applied with sanding between each coat. This results in a durable, elegant, high-gloss finish.

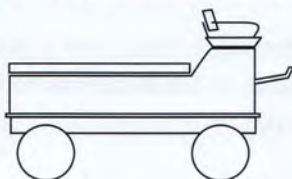

## Raised Steel Tongue

The raised tongue allows better clearance for horses' legs. Optional spring reduces the weight on the horses' neck.

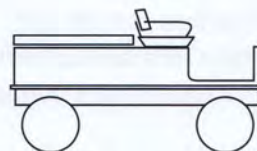

## Standard Tongue Lengths from Hitch Pin to Neckyoke:

Mini = 73" • Pony = 85" • Haflinger = 102" • Draft = 121"

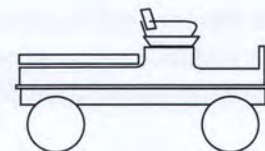

## Choose from 6 Standard Bed Designs

# DRAFT WAGON

The Weaver Draft Wagon is right at home on the farm, on mountain trails, or in a local parade. This wagon is an exceptional choice for a farmer, homesteader, or hobbyist. From hauling firewood to hauling around a few friends - Weavers has a wagon for you.

## Sled Runners

Pioneer Sled Runners bolt directly to your wheel hubs, easily converting your wagon into a sled. Sled runners are not available for gears with wood wheels.

### Weaver Box Bed

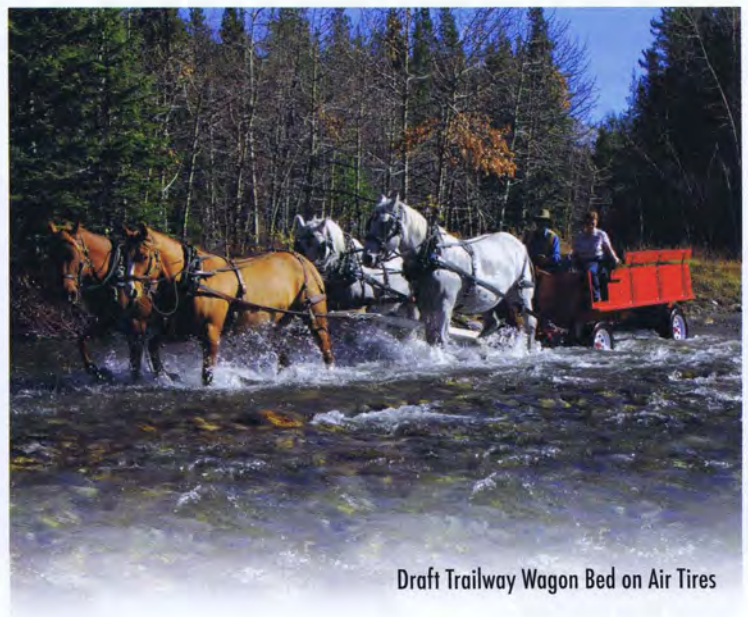

Our Box Bed comes with a spring mounted seat and rear end gates. It measures 38" x 12' when you include the footboard and scoop extension. A traditional farm wagon with modern updates.

Optional LED Lights & Canvas Top

Optional Safety Flag

# FARM WAGONS

Our first wagons were simple quality farm flatbeds. That tradition continues today with our most popular 7'6" x 16' flatbed with optional uprights. These flatbeds are constructed on heavy-duty 6-Ton Pioneer gears and come with mechanical brakes and treated lumber floors.

## STONEBOAT

Haul light loads and exercise your horses with this economical runabout sled.

The 4' x 5' treated floor and 24" high removable dashboard ride on 6" tall steel soled runners. Tongue and Shafts are not available.

Standard 7'6" x 16' Flatbed on Pioneer 6-Ton Gear with Steel Wheel, Optional Front and Rear Uprights and Mechanical Brakes

# PEOPLE HAULERS

Weaver People Haulers are designed to move large groups of people in a safe, efficient, and comfortable manner. These wagons are used in animal parks, fall festivals, hay rides, etc. Each wagon is custom built to ensure you have just the right wagon for your application.

## People Hauler Features

- Full length seats on both sides
  - Double bench in center folds for wheelchair space
  - Hydraulic brakes on 4 wheels
  - Canvas top provides protection from the weather
  - Front entry for driver
  - Rear steps for quick and easy loading
  - Bolster spring or torsion axle suspension
  - Tongue lift spring kit included
- (Call for Pricing)

# HITCH WAGONS

Built to perform, whether its on a parade route or in the show ring. Our hitch wagons are custom built to suit your needs, right down to the pinstripes. They feature our automotive finish, innovative steel fifth-wheel, hydraulic brakes and many custom accents.

## Smooth Side Panel

Allows for easy customization providing an ideal spot for your farm name or logo. Custom pinstripes is also available.

## Innovative Steel Fifth-Wheel

Designed for smooth turns and improved safety.

## Built-In Steps

Two built in steps and grab handles make it both safer and easier for the teamster to get on and off.

### **Chrome Accents**

Polished chrome and stainless accents are standard equipment.

### **Custom Tailgate Latches**

Hidden on the inside for a clean look that eliminates the noise and damage caused by tailgate chains.

### **Heavy-Duty Wheels**

Large heavy-duty wheels and great overall proportions give this wagon its classic look.

# REPAIR & RESTORATION

Put our experience in the wagon industry to work for you by letting us repair, recondition or restore your wagon. With our new shop, we have expanded our metal fabrication capabilities and we, of course, have our team of skilled woodworkers and painters. Over the years we have become known for our outstanding finishes. We have satisfied many restoration customers on a wide variety of projects. There is no project too big or too small. From hitch wagons to luggage carts we have done them all.

## Weaver's Automotive Finish

The automotive finish is a complex eight-step process that begins with a wagon sanded to an ultra-smooth finish. Numerous coats of finish are applied with sanding between each coat. This results in a durable, elegant, high-gloss finish.

Wood neckyokes and doubletrees are made from select hardwoods, handcrafted and finished to perfection. Available in sizes for small ponies to large drafts.

Lanterns

## Chrome & Stainless Parts

We stock various steel, chrome and stainless wagon parts, hardware and chain. Everything you need to repair or just spruce up your wagon for show season.

# BENCH WAGONS & BENCHES

Our bench wagons are designed to carry seating for approximately 200 people. They also have additional storage space including room for up to three Lifetime tables. All interior storage areas are lined with a protective carpet to prevent scratches.

## **Up to 10 Year Weather Proof Warranty.**

The exterior of our wagons is covered with 24 gauge sheet metal using stainless steel screws with washers, hinges, latches, steps and platform. All of which provide you extreme durability in all weather conditions.

## **Quality Weaver Benches**

Made from the highest quality wood and hardware components, our benches come standard with an indoor varnish finish, high quality pinch proof locking hardware and an easy carry handle. Benches can be finished natural, stained, painted and even engraved to your liking. Available in 4' to 10' lengths.

Table legs are available to quickly convert two benches into a functional table.

# OPEN BUGGIES

Featuring the latest in style and comfort, the brand new Weaver Open Buggy is simply the top of the line. Available with air ride, or rubber shocks and an extremely comfortable, durable PVC seat. Place all of that on top of torsion axles and you have a ride like no other. Finish it off with our automotive paint and this is an impressive buggy.

**Air Ride or Rubber Shock on Torsion Axles**

**Hydraulic Disc Brakes**

**LED Lighting**

**Proven 5th Wheel Design**

**Easily add or remove a second row seat**

# PATIO SEATS

Elegance and comfort brought to your backyard or patio. Accented with black hardware, this classic design is right at home in most any setting. Customize your seat back with a custom engraving.
